

"A SMALL STEP, TOWARDS A BIG IMPACT..."

J&J Services GB Ltd are proud to announce their NEW range of 100% ELECTRIC Cleaning Machines & Garbage Vehicles. Now for sale across the UK.

J&J Services GB Ltd, based in Bedfordshire, have just released their new Range of 100% Electric Cleaning machines & Garbage Collection Vehicles. These comply with all the new UK Emissions and Pollution Laws, which came into operation during April this year in London.

When asked 'What impact will these New Electric Vehicles have on the Environment?' a J&J spokesman said "They're a small step towards making a BIG impact on reducing Public exposure to air pollution"

Last year J&J supplied their Electric Pedestrian Hoover to the Maintenance Team of Bedford's River Festival (See Article Below) for a

Trial period over the 'crowded' Weekend Event.

The ECV Range consists of various Electric Machine Models.

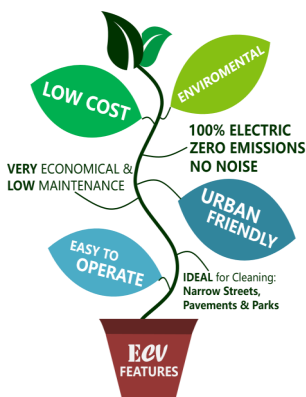

These include Pedestrian/Walk Behind Sweepers & Scrubber Driers, also available in Ride On Sizes. Also within the Range are

Garbage Collection
Golf Buggies
Utility Vehicles.

These are designed for Large Outdoor Areas such as Shopping Centres and Holiday Parks.

ECV Range:
Pedestrian Walk Behinds
Ride On Machines
Garbage Collection Vehicles.

- FULL After Sales Back Up (SALES, SERVICE & HIRE)

A 'WHEELIE' CLEAN EMBANKMENT..

In July 2018, J&J Services GB Ltd were behind the 'clear up' operation for Bedford's Famous River Festival. This 2 Day Event traditionally takes place on the Town's historic Embankment site, and presents Live Music, Food, Drink, as well as Arts & Crafts.

Following Record visitor numbers, Garbage and Food Waste was scattered around the remains of the Site. J&J provided their popular 'Electric

Pedestrian Vacuum' Model, which was used frequently over the Festival Weekend. Feedback from the

Organizers & Bedford

Borough Council was very positive. Maintenance Crew found many advantages against previous Cleaning equipment from recent years.
